SUMMARY

Innovative Full-Stack Developer experienced in designing scalable microservices, multi-tenant SaaS platforms, and dynamic web interfaces. Skilled in bridging robust backend architectures with streamlined DevOps workflows and containerized deployments to deliver high-performance software solutions.

EDUCATION

Bachelor of Science (Hons) in Information Technology (Reading) 2023 - 2027

BCI Campus | School of Computing

- Current GPA : 3.67 / 4.0

GCE Advanced Level Examination 2021(2022)

Commerce Stream | Sri Sangabodhi C.C

- Business Studies : A
- Accounting : B
- Information & Communication Technology : B

PROFESSIONAL EXPERIENCE

Full-Stack Developer (Intern) | Heaven'sCode | Feb 2026 - Sep 2026

- Engineered scalable web applications across both microservice and monolithic architectures, utilizing Angular and React for dynamic front-ends alongside Spring Boot and PostgreSQL for robust backend operations.
- Streamlined system deployments by configuring CI/CD pipelines, containerizing applications with Docker and Kubernetes, and managing version control via Azure.
- Collaborated cross-functionally to debug, test, and optimize full-stack system performance, utilizing Swagger for comprehensive API testing and ensuring the reliable delivery of new features.

Full-Stack Developer (Intern) | Cloud Shift (Remote) | May 2025 - Aug 2025

- Assisted in developing and maintaining web applications using modern frameworks (.Net Core).
- Worked with front-end and back-end technologies to implement new features.
- Collaborated with developers to debug, test, and optimize system performance.

Creative Director | Kenu Technologies (Remote) | April 2024 - Mar 2025

- Led the creative direction for branding and digital content.
- Designed UI/UX concepts for company projects and improved overall visual identity.
- Guided the team on design standards and ensured high-quality deliverables.

CERTIFICATIONS

CCNA 200-301

- I followed the CCNA course at Winsys Networks Pvt Ltd at Bambalapitiya - (Cisco Certified Network Associate)

CCNAv7: Introduction to Networks

- I have successfully completed the CCNAv7 at SLIIT Campus at Malabe

Introduction to Cybersecurity

- I have successfully completed the Introduction to Cybersecurity Course at the Vocational Training Authority of Sri Lanka

Python for Data Science

- Completed an online course covering the fundamentals of Python programming, including data types, control structures, functions, and libraries such as NumPy and Pandas. Gained practical experience in data manipulation, analysis, and scripting for real-world applications.

Oracle Cloud Infrastructure 2025 AI Foundations Associate (1Z0-1122-25)

- Successfully earned the Oracle Cloud Infrastructure AI Foundations Associate certification, demonstrating knowledge in artificial intelligence concepts, machine learning fundamentals, and Oracle Cloud AI services for building intelligent cloud solutions.

TECHNICAL SKILLS

HTML	Node.js	PHP/ Laravel
CSS	React.js	Cisco Configuration
Java	Tailwind CSS	Figma
Java Script	MongoDB / MySQL	Word Press
Python	CI/CD Pipeline	Kubernetes
C++	Pyspark	C# .NET
Docker	Angular	Spring Boot
Azure	GitHub	

SOFT SKILLS

Teamwork	Leadership	Critical Thinking
Creativity	Time Management	Project Management

PROJECTS

Sipma Educational Institute Management System (Web Application)

Team Project | Technologies: React, Node.js, Express.js, MongoDB, Tailwind CSS

- Designed and developed a centralized, web-based platform to streamline administrative and financial workflows for the Sipma Education Center.
- Implemented core modules for student and teacher registration, automated tuition fee reporting, and attendance tracking utilizing Web NFC hardware integration.
- Managed agile development lifecycles using Jira, tracking work items across multiple Scrum sprints to resolve functional issues and optimize system modules.

Edura LMS (SaaS Application)

Team Project | Technologies: C#, .NET, SQL

- Architected a scalable, multi-tenant SaaS platform tailored for Sri Lankan educators, utilizing React for a dynamic frontend alongside PHP Laravel and MySQL for robust backend operations.
- Designed a comprehensive multi-dashboard ecosystem with secure Role-Based Access Control (RBAC) for student and instructor portals, integrating the Stripe payment gateway for seamless tuition processing.
- Implemented automated performance tracking and WhatsApp notification capabilities to deliver instant updates regarding exam schedules, academic benchmarks, and timetable adjustments.

Hospital Management System (Desktop Application)

Individual Project | Technologies: C#, .NET, SQL

- Designed and developed a multi-user desktop application for hospital record management.
- Implemented modules for patient registration, appointment scheduling, and billing.
- Ensured data integrity and user authentication using SQL database integration.

Community Web Application for Gym Enthusiasts

Team Project | Technologies: React.js, Tailwind CSS, Figma

- Designed and developed both the UI/UX and a part frontend for a web platform connecting fitness enthusiasts and trainers.
- Built responsive pages using React.js and Tailwind CSS, ensuring a clean and modern interface.
- Designed interactive wireframes and prototypes in Figma to guide the frontend development process.

Auto Mobile Service Center Web Application

Team Project | Technologies: HTML, CSS, JavaScript, Figma

- A web-based automobile management system developed as part of a university web development and Built a responsive web interface for booking and managing customer services.
- Developed modules for customer management, vehicle and service tracking, billing, and inventory
- control, ensuring data accuracy and role-based access for admins, mechanics, cashiers, and customers.

EXTRA CURRICULAR ACTIVITIES

- | | |
|---|----------------|
| • Social Media Coordinator - BCI Ugrads Media Club. | 2024 - Present |
| • Member - BCI Coding Club. | 2024 - Present |
| • Junior Prefect - Sri Sangabodhi C.C | 2018 - 2019 |
